

I pay for my phone number, and service ...it is for MY personal use to use as I CHOSE...it is not for me to be solicited. And as with most cell phone providers i would be charged for any INcoming calls as well as outgoing calls therefore I think it is totallyunjust for anyone to call me or use my number unless I give them the number and the authority and the right to call me. This is MY right to privacy! We own nor does the government owe ANYTHING to these telemarketers. Your responsibility is to the residents of new jersey. It is just redundant to even suggest "weakening" a PROTECTION law of any kind! R. Faeth
